**Date:** February 18, 2026

**Subject:** Web Accessibility for Web-Based Services, Platforms, or Content

To the El Dorado County Chief Administrative Office:

Tech Logic is pursuing WCAG compliance; currently, we are working with a third-party compliance auditor to review all web-based and non-web-based products against WCAG 2.2 AA criteria.

Tech Logic intends for our web-based products to be compliant with WCAG 2.2 AA criteria before April 24, 2026.

Tech Logic's product line contains both web-based and non-web-based software. As Tech Logic evaluates the company's product line for the accessibility of any software responsible for controlling closed systems/environments and non-web-based environments, we are using WCAG2ICT for guidance.

If you have any questions, please reach out to me. I am happy to assist you.

Sincerely,

A handwritten signature in black ink that reads "Tim Granquist". The signature is written in a cursive, slightly slanted style.

**Tim Granquist | Chief Operating Officer (COO) | Tech Logic Corporation**
