Keely,

Serrano originally submitted a reimbursement request for \$3,548,962.83 with the documentation to support this amount. In the process of the project being closed out, accepted by the Board, and the acquisition report being created, Serrano submitted additional documentation (invoices, checks, etc) from this project and earlier CFD projects to be reimbursed. I reviewed these new documents, included them in the final acquisition report that was distributed to Serrano, EID, County Counsel, and CDA management for review and approval.

Hope this clarifies the questions.

Scott

Scott,

I need some clarification to take to Joe for review about this.

The amount indicated on the signed reimbursement request submitted by Serrano was \$3,548,961.83.

The amount of the wire request memorandum was \$3,559,961.83.

It was not clear to us why there was an increase to the original amount that Serrano asserted to.

**Re: CFD No. 1992-1 Reimbursement Request, Book #33
Project 2.2.7: Sienna Ridge Drive & Signalization Improvements
(Station 1+03.13 to 13+50.00)**

Dear Mr. Spiegelberg:

As required by the County of El Dorado Guidelines for Special Districts Acquisition Projects and as authorized by the Acquisition Funding and Disclosure Agreement between the El Dorado Hills Development Company (now Serrano Associates, LLC) and the County of El Dorado, dated September 22, 1992, we are submitting this request for reimbursement of eligible project costs from District funds.

The work included in this reimbursement request relates to the construction of the above referenced road segment and signal. It includes engineering, geotechnical engineering, plan checking, construction and construction inspection.

The total amount requested for reimbursement for the subject work is \$3,548,961.83. This reimbursement should be taken from County funds allocated CFD No. 1992-1.

The breakdown of original contract amounts, change orders and costs eligible for reimbursement for both projects are included in Construction Data Book #33 (two volumes). Volume #1 contains detailed costs breakdowns, actual installed quantities and engineering back-up, as well as other required items. Volume #2 contains all overhead costs, engineering, supervision and inspection as well as copies of all checks and payments. A summary of costs is contained in Attachment 2 to this letter.

Serrano Associates, LLC certifies to the District Engineer and the County of El Dorado that with reference to the subject work of this reimbursement request, that prevailing wages have been paid for all contractors and subcontractors, and all other labor code requirements for public works have been complied with, and the facilities were completed pursuant to the

Guidelines and requirements of Section 53314.9 of the Mello-Roos Act. All warranties, guarantees or other evidence of contingent obligations of the third parties with respect to such facilities shall be delivered to the CAO prior to acceptance.

To the best of Serrano Associates, LLC's knowledge, no mechanics liens exist against the property on which the work was performed, the title of which rests with the El Dorado County.

In accordance with Section 12 of the above-mentioned Acquisition Funding and Disclosure Agreement, Serrano Associates has provided written notification to each and every purchaser of residential homes or commercial property owner upon which a Special Tax will be levied as a result of work performed under this project.

Please see attachments for pertinent correspondence and documentation.

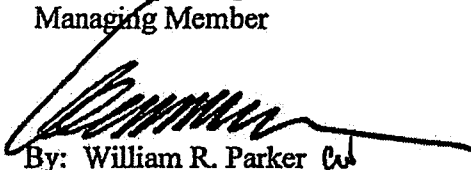

We hope that we have satisfied all of the requirements for receiving reimbursement for our costs associated with this work. We anticipate hearing from you no later than 30 days after you receive this package.

Please contact Patty Peck, Controller, at (916) 939-4060 if you have any questions.
