"mkt\_alloc"

[1] Excludes Tahoe Basin.

[2] Estimates of total capacity are based on what could be legally allowed. Calculations were derived by multiplying acres times maximum densities.

[3] Total adjusted supply is equivalent to total capacity adjusted for slope.

[4] Totals may not exactly match those in other Tables due to rounding.

"np\_mkt\_alloc"

- [1] Excludes Tahoe Basin.
- [2] Estimates of total capacity are based on what could be legally allowed.  
Calculations were derived by multiplying acres times maximum densities
- [3] Total adjusted supply is equivalent to total capacity adjusted for slope.
- [4] Totals may not exactly match those in other Tables due to rounding.

"mkt\_alloc\_1996GP"

[1] Excludes Tahoe Basin.

[2] Estimates of total capacity are based on what could be legally allowed.

Calculations were derived by multiplying acres times maximum densities.

[3] Total adjusted supply is equivalent to total capacity adjusted for slope.

[4] Totals may not exactly match those in other Tables due to rounding.

**APPENDIX D:  
GLOSSARY OF TERMS**

# GLOSSARY OF TERMS

---

The following terms are used in the El Dorado County Land Use Forecast Report and are defined here to assist the reader. The definitions reflect EPS intended use of the term for the purposes of the Report.

**Absorption** - rate at which residential and non-residential land uses are assumed to develop within a given time period.

**Allocation** - distribution of total projected residential and non-residential development among Traffic Analysis Zones and Market Areas.

**Adjusted Supply** - amount of Total Residential Supply (Capacity) expected to be available for development in 2025, taking into account constraints on development potential.

**APN** - Assessors Parcel Number, used to identify parcels in the County for the purposes of records management within the County Assessor's Office.

**APN Status Code** - code used by the County Assessor's Office in the Assessor's Parcel Database to describe the tax status of a particular parcel.

**Approved Projects** - projects in the Issued Permit, Tentative Subdivision Map, Tentative Parcel Map, and Specific Plan categories. Used interchangeably with "Existing Commitments."

**Assessor's Database** - the El Dorado County Assessor's Parcel Database, which is compiled by the County Assessor's Office for purposes of levying property taxes and other assessments. The Assessor's Database used in this Report was dated as of August 2001 and included approximately 96,500 tax parcel records providing information on each parcel such as size and use type (e.g., vacant, developed, agricultural preserve, etc.).

**Base Year** - the year 1999, from which point the development projections are forecasted.

**Buildout** - the theoretical point at which all Capacity is utilized.

**Capacity** - the amount of land, dwelling units, non-residential acres or building square feet available in the County for future development. Used interchangeably with "Supply."

**Demand** - the expected want or need for residential development (in terms of housing units) and non-residential development (in terms of employees) in the County based on projected population growth and other factors.

**Density** - the number of units per acre assumed for a specified residential Land Use Designation.

**DOF** - means the California Department of Finance, the state agency charged with developing statewide and regional population growth forecasts.

**Developed Parcels** - parcels coded in the Assessor's Parcel Database as having buildings or housing units that had been constructed and occupied prior to August 2001. Developed Parcels were excluded from the forecast of total capacity, unless they were vacant and committed as of the base year (i.e., included in Existing Commitments) or were determined to have underutilized capacity.

**Development Agreement** - a legal agreement between El Dorado County and a project developer which defines the parameters of a development project, such as the number units that can be built within the project and at what density. Parcels for which there was an executed Development Agreement were counted in the Report as an approved project/existing commitment.

**EDD** - California Employment Development Department, the state agency charged with developing forecasts of statewide and regional employment levels.

**EPS** - Economic & Planning Systems, Inc., the author of this report.

**Existing Commitments** - projects for which a building permit has been issued or a tentative parcel map, tentative subdivision map, or development agreement was approved prior to the issuance of the writ. Used interchangeably with "Approved Projects."

**Floor-to-Area Ratio (FAR)** - ratio used to determine the expected square feet of non-residential development on a parcel based on the land area of the parcel. The FARs used in this Report are based on industry standards for the specified land use (commercial, industrial, public facilities, and research & development).

**Household** - an occupied housing unit. The typical Household is assumed to house 2.67 persons.

**Issued Permit (IP)** - a parcel for which a building permit was issued but for which construction was not complete as of the Base Year.

**Jurisdictional Parcel** - a parcel subject to El Dorado County land use regulation.

**Land Use Designation** - the land use category assigned to a specific parcel based on either the 1996 General Plan or 2001 Project Description. The land use designation describes the general category of land uses permitted within the designated area, such as residential, commercial, industrial, public facilities, research & development, natural resources, or open space. In addition, the maximum permitted density of residential units on a parcel is determined by the parcel's land use designation.

**Market Area** - a specified area or subregion defined based on established socio-economic trends. The Report divides the County into 14 distinct market areas.

**Multi-Family Unit** – an attached dwelling unit, such as an apartment. Second units were also counted as multi-family units for the purposes of this analysis.

**Non-Jurisdictional Parcel** – a parcel not subject to El Dorado County land use regulation (i.e., for which the County currently has no jurisdictional control over development approvals). These parcels primarily consist of national forest or other public lands owned by the Federal or State government, and lands within the City of Placerville.

**Planning Horizon** – the general time frame which the County General Plan is intended to address. The Planning Horizon for this planning process is 2025.

**Remaining Capacity** – the maximum development potential for all parcels that are currently identified as vacant or undeveloped and are not included as Existing Commitments.

**SACOG** – the Sacramento Area Council of Governments, a regional agency charged with developing land use forecasts for the greater Sacramento area including El Dorado County.

**Second Unit** – a dwelling unit that can be built on an a single family residential parcel in addition to the primary dwelling unit, without any discretionary approvals. Second units are often referred to as “Granny Flats”.

**Single Family Unit** – a residential detached dwelling unit.

**Specific Plan (SP)** – parcels that are a part of a specific plan (such as Serrano or Promontory) and are subject to a development agreement.

**Supply** – the amount of land, dwelling units, non-residential acres or building square feet available in the County for future development. Used interchangeably with “Capacity.”

**Tentative Subdivision Map (TM)** – parcels for which a tentative subdivision map (i.e., subdivision of five or more parcels) was approved but not recorded as of the Base Year.

**Tentative Parcel Map (PM)** – parcels for which a tentative parcel map (i.e., subdivision of four or fewer parcels) was approved but not recorded as of the Base Year.

**Traffic Analysis Zone (TAZ)** – defined geographic areas that reflect homogenous traffic behavior and patterns. Each Market Area has been divided into several TAZs.

**Underutilized Parcels** – Developed Parcels which, based on their size and land use designation, are considered to have additional development capacity.

**Writ** – the Writ of Mandate issued in 1999 by the Sacramento Superior Court directing the County to rescind its 1996 approval of a general plan and prohibiting most new discretionary approvals of residential development in the County until a general plan is validly adopted.
