The conflict monitor program card is supplied with all 120 diodes installed. Diodes for phases **NOT** in conflict must be removed.

1. Mark channels (phases) that are not conflicting.
2. Remove corresponding diodes from diode board.
3. Mark diode board with name of intersection.

The conflict monitor program card is supplied with all 120 diodes installed. Diodes for phases **NOT** in conflict must be removed.

1. Mark channels (phases) that are not conflicting.
2. Remove corresponding diodes from diode board.
3. Mark diode board with name of intersection.
