POLICY

*This administrative policy is subject to change at any time.*

### **CREDIT FOR WORK DONE ON PLAN CHECK**

---

When an application expires a new application may receive credit for work done on the original application.

Schedule of Credits for new application:

Structural review complete: 20%

Non Structural complete: 20%

Grading/site review: 20%

Planning by Bldg Staff: 15%

All Building Department approvals complete: 90% of the current application fee but in no case less than \$50.00.

These credits only apply to Building Department fees and do not extend the expiration date of the original application. A new application date is created and the rules in effect at that time apply. If there have been code changes, the credit for that area of work may be reduced based on the amount of review required.

The application must be routed to all agencies that may have an interest so that they may determine if they have any new conditions that they wish to apply.
