EMERGENCY SUPPLY KIT

PREPARE YOUR EMERGENCY SUPPLY KIT BEFORE A DISASTER OCCURS

Your emergency supply kit should be kept in a location that is easy to access and simple to carry so it can be taken quickly if evacuation becomes necessary. Store the kit somewhere you can reach with ease, ensuring it is always ready to go at a moment's notice. Your kit should be prepared with the expectation that you may be away from home for an extended period.

Your Bag Should Include:

- Three-day supply of non-perishable food and drinking water for each person
- Map marked with two evacuation routes
- Medications and prescriptions
- Change of clothing, sturdy shoes, and extra eyeglasses or contact lenses
- Extra set of car keys, credit cards, cash, or traveler's checks
- Copies of important documents (birth certificates, passports, insurance, etc.)
- Phone chargers and power banks
- First aid kit and sanitation supplies
- Flashlight, battery-powered radio, and extra batteries
- If time allows: easily carried valuables, irreplaceable family items, important digital files, and extra electronics

MAINTAINING YOUR EMERGENCY SUPPLY KIT

Make sure to keep your kit in good condition each year so it's always ready when you need it:

- Store canned food in a cool, dry location
- Keep boxed foods in tightly sealed plastic or metal containers
- Check expiration dates regularly and replace items as needed
- Review your kit each year and update it to reflect any changes in your family's needs
